

Twintec Battery TTB4552S

The TTB4552S mid range twin brush machine takes one half of its design from the 3450/4500 series with its stainless steel chassis, polyurethane wheels, floating nozzle and built-in charging system, but to this we have added the twin motored, twin brush power head which virtually doubles the weight that is available on the floor surface. It is a little like taking a car with a 4 cylinder engine and swapping it for a V8! The power is exactly where you need it and ideally suited for the more arduous of applications. The full 100A/hr battery system ensures a good operating range, and with a full 40-litre capacity and 55cm cleaning path provides excellent performance.

The TTB4552S really does pack more innovation, performance and usability into one machine than most.

Brush Motor	Vac Motor	Power	Time	Deck	Speed	Capacity	Weight	Size
2 x 24V 400W	24V 400W	2 x 12V (24V) 100Ahr	2.25Hrs	550mm (2 x 280mm)	120rpm	40L	126Kg	1150 x 1030 x 850mm
