

ServoKeeper Systems

SKAT20 Series

Without doubt the SKAT housekeeping module is the result of our many years of servicing hotel operations.

The big wheel Structurofoam chassis allows for movement inside or out if necessary, not to mention in and out of elevators.

The internal 5 drawer storage system helps keep everything both neat and tidy and secure.

The fully integrated 'Nite' cover is so very simple and so practical that it's always there when you need it and can be used day or night.

The full size Servo-Keeper is supplied complete with twin 100-litre laundry extensions (2 x Kit SKA-100).

Where separate laundry trolleys are being used the SKAT20 without bag extensions can also be supplied.
